

BEE LIVE

PROJECT ERASMUS + KA229: 2020-I-FR01-KA229-080278

COUNTRIES / SCHOOL PARTNERS

- Lycee du Pré Saint Sauveur - France
- Gimnazija Jozeta Plecnika Ljubljana - Slovenie
- Agrupamento de Escolas Póvoa de Lanhoso - Portugal
- Liceo Scientifico Statale Ernesto Basile - Italie

THIS PROJECT IS
BASED ON
TRAINING OUR
STUDENTS TO
BECOME ECO
DELEGATES ACTIVE
IN THE FIGHT
AGAINST THE LOSS
OF BIODIVERSITY

BRIEF DESCRIPTION OF EXPECTED RESULTS AND IMPACTS ON STUDENTS

- Be aware of environmental and climate challenges in a European approach and not just local or national;
- improve collaboration and team work;
- improve language skills through innovative activities and the use of information and communication technologies;
- better prepare our students to become agents of change;
- better prepare them for their integration into the world of work.

ACTIVITIES

BIODIVERSITY IN URBAN AREAS

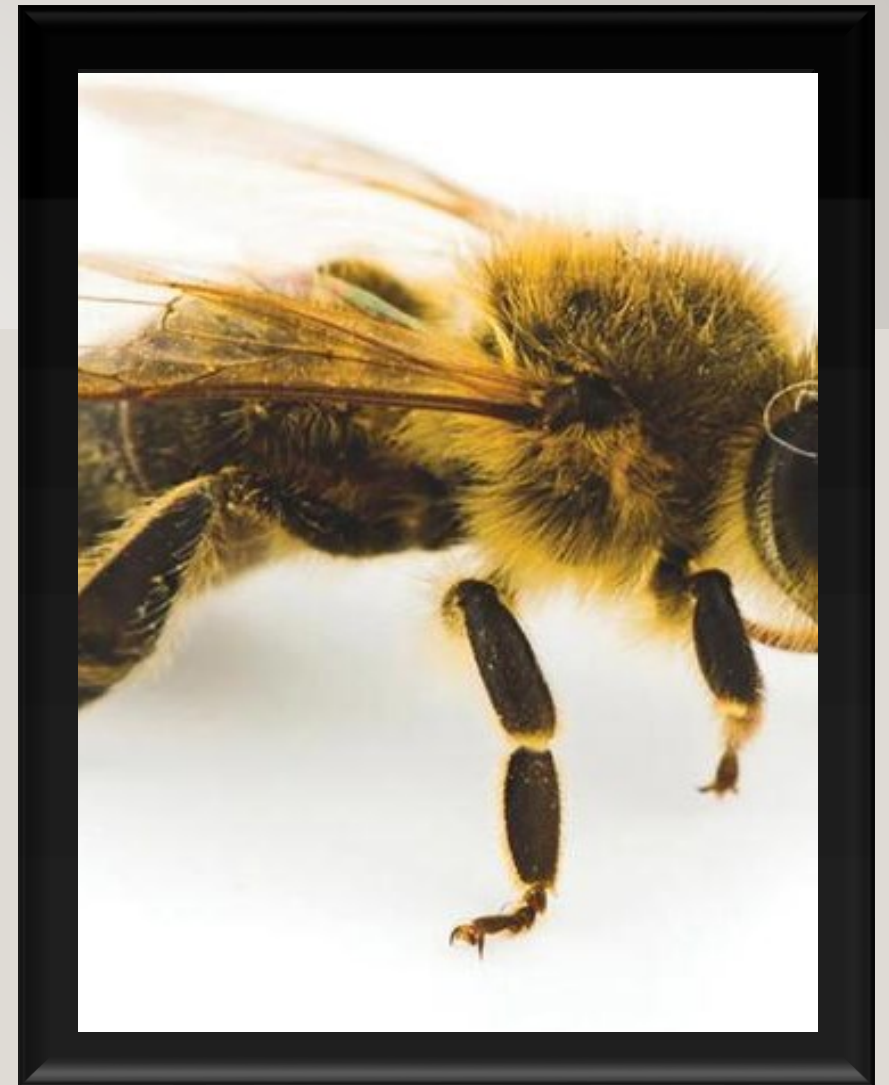

- eTwinning project set up
- Theme: Bee Live
- Stage 1: Bees and Urban Biodiversity.
- Hives on roofs - why? What is the Biodiversity in city like?
- Probable duration: September - December 2021

#ERASMUSDAYS 2021:

eTwinning Event:

From October 14th to 16th, 2021

- Project dissemination event. Each school registers the event in its country;
- Production of posters;
- Each group of students is invited to create a recipe for recycling left over food;
- Presentation of the project to the local press: to find out about the commitment of each one in the formation of our European delegates;
- Publish all the articles in a local newspaper and in Twinspace.

1st TEACHERS MEETING

Agrupamento de Escolas Póvoa de Lanhoso - Portugal

28th– 30th September 2021

1st MOBILITY STUDENTS/TEACHERS

Gimnazija Jozeta Plecnika – Ljubljana (Slovenie)

Biodiversity in the urban environment

22th– 26th November 2021

THE BIODIVERSITY OLYMPICS

- Step 2 of the eTwinning project:
- An eco-delegate, who...
- Preparation of debates about biodiversity at school;
- Project duration: January - April 2022

2nd MOBILITY STUDENTS/TEACHERS

Lycee du Pré Saint Sauveurs – France

The Biodiversity Olympics

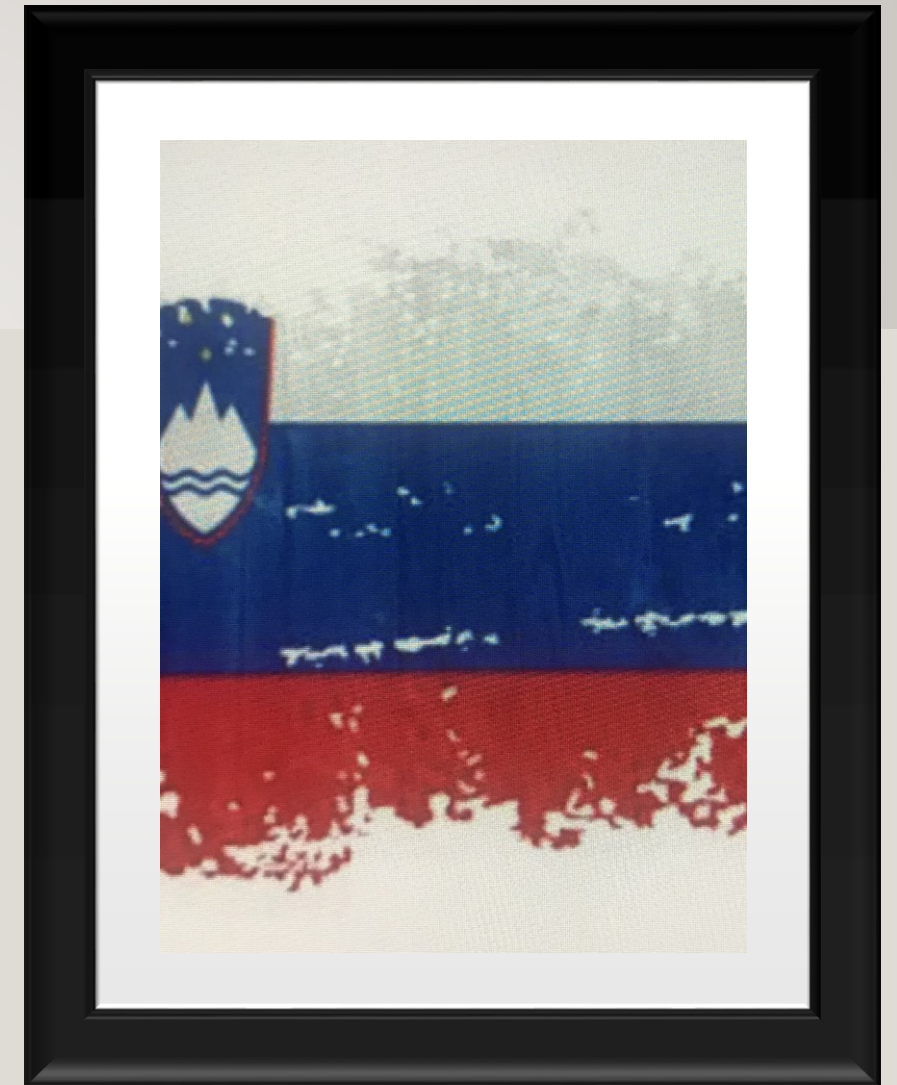

February 2022

2nd TEACHERS MEETING

Gimnazija Jozeta Plecnika – Ljubljana (Slovenia)

June 2021

INTENSIVE AGRICULTURAL POLLINATORS

- Step 3 of the eTwinning project:
- Research work about intensive agriculture in Sicily;
- Why are agricultural inputs harmful to pollinators in the season;
- Project duration: September - December 2022.

3rd MOBILITY STUDENTS/TEACHERS

Liceo Scientifico Statale Ernesto Basile – Italie

Sicilian Biodiversity

October 2022

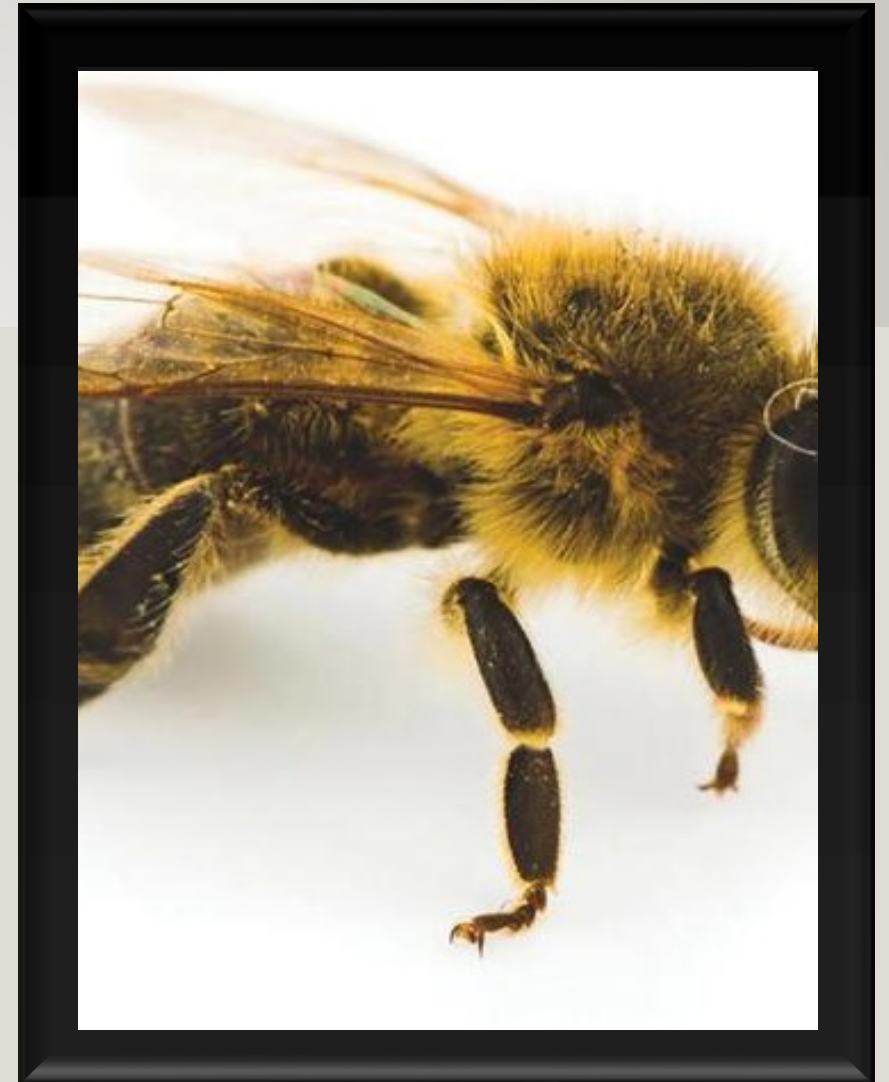

#ERASMUSDAYS 2022:

REFLECTION ON THE TOPIC OF INTENSIVE AGRICULTURE
AND ITS ROLE IN THE LOSS OF BIODIVERSITY.

eTwinning event:

October 2022

- Each school presents a vídeo;
- Dissemination of results;
- We would also like to make this a manifestation of our students' commitment to the biodiversity preservation Project;
- Think of an action that can make us known locally.

WHAT IS THE EUROPEAN PARLIAMENT?

- How and why to write a proposed resolution?
- Project duration: January to April 2023.

4th MOBILITY STUDENTS/TEACHERS

Agrupamento de Escolas Póvoa de Lanhoso – Portugal

A resolution for the European Parliament

March 2023

3rd TEACHERS MEETING

Lycee du Pré Saint Sauveur - France

June 2023
